**SOME GOOD ADVICE.**  
"Don't think too much of your own methods. Watch other people's ways and learn from them." This is good advice, especially when bilious or constipated. You will find many people who use Chamberlain's Tablets for these ailments with the best results, and will do well to follow their example. For sale by A. C. Philipp.

**The Boy Is the Father of the Man.**  
The director of education in Liverpool has just made a great and important discovery which future generations of educationalists will doubtless regard as epoch-making as the first voyage of Christopher Columbus. He says that "boys have a perfect passion of watching men at work." Strange to say, we have noticed the same phenomenon with many men.

**That Would Surely Fix It.**  
Pa—"At last I've found a way to make that young scamp of ours stop winking his eyes." Ma—"Really?" Pa—"Yes, I'll show him the articles in this science magazine where it says that every time we wink we give the eye a bath."—Buffalo Express.

**MONUMENTS**  
Not how cheap, but how good. For QUALITY remains long after the price is forgotten.  
W. D. McIntosh, Proprietor.

**Higher Prices**  
During the past year the price of nearly all the machines we sell have advanced from 10 to 100 per cent.

There is no relief in sight for all manufacturers have to buy their steel and other supplies from eight to twelve months in advance. It is, therefore, a sure thing that the price of next year's machinery will be much higher.

We have the largest stock that we ever carried and until that is sold we are naming prices that can not be duplicated on the market today.

If you need machinery of any kind this year or next it will be to your advantage to buy before the present stock is exhausted.
